Billing Solutions

Billing Solutions

All Trailblazers Leave a Path

Trailblazer *(noun)*: **one who makes, does, or discovers something new and makes it acceptable or popular; one who marks or prepares a trail for others to follow.**

Since 2002, DataPath's Billing Solutions have been blazing a trail in the healthcare benefits administration industry. With our best-in-class COBRA solution, State Continuation, Direct and Customized Billing, and Retiree Billing, DataPath has become a market leader in billing solution functionality.

As a TPA, you're trying to remain competitive, stay on top of regulatory changes, and attract and maintain revenue streams. With DataPath Billing Solutions, you can overcome these challenges and scale the mountain to greater success for you and your clients. DataPath Billing Solutions can be applied to various billing arenas and adapted to a variety of specifications to meet your needs.

DataPath's best-in-market Premium Billing systems were designed to address the complexities of healthcare benefits administration. We work hand-in-hand with our clients to develop innovative technology solutions, using knowledge cultivated from over 30 years of experience and interaction with third party administrators. Since 2002, DataPath has been a market leader in billing solution functionality, helping our clients efficiently administer COBRA and State Continuation benefits as well as Direct Billing and Retiree Billing programs.

DataPath's powerful Premium Billing solutions have many ease-of-use features, including unlimited plan designs, an intuitive interface, and 24/7 online account access. Complex billing administration has never been easier.

COBRA and State Continuation

Our COBRA solution is a recognized leader in the administrative industry. We listened to the real-world needs of TPAs and developed a system with seamless functionality, including:

- Schedule-based notice generation

- Comprehensive account reconciliation capability

- Automatically monitored COBRA-related events

- Time-frame tracking

- Legal compliance reports

Our Premium Billing solution also provides full-featured State Continuation administration.

Direct and Customized Billing

DataPath's Direct Billing solution is used not only for collecting premiums for group health benefits, but can also be applied to other billing arenas such as leave of absence, contract employees, individual marketplace payments, parking fees, union dues, or other purposes tailored to your needs.

Our versatile Direct and Customized Billing solution adapts to a variety of specifications, enabling you to handle any payment, benefit, billing, and election structure.

Retiree Billing

Our versatile Retiree Billing solution features active-to-retiree auto enrollment and adapts to a wide variety of specifications, taking the challenge out of billing administration. Handle any payment, benefits, billing, or election structure with our ease-of-use features.

DataPath Billing Solutions Features

Integrated Cash Management – Keep track of premium receipt and remittance, and issue refunds and create checks for participants.

Third-Party Payer Capability – Accurately invoice an entity other than the named account holder. Receipts can be identified in the system by the actual payer, allowing any subsequent refunds to be made to the actual payer rather than the account holder.

Quick Plan Setup – Setup new plans quickly with our intuitive wizards and by importing census, benefit, and payment data from other software or from other DataPath solutions.

State-of-the-Art Fulfillment Services – Generate documents and notices automatically, store documents digitally and on the web, and receive proof of mailing.

Follow the path to better Billing Solutions
